

Design services are offered only in conjunction with the projects that we construct. Our Associates include licensed Professional Engineers (P.E.) who work in consultation with affiliated Architects and other design professionals providing services starting with site or floor planning and concluding with the issuance of construction drawings. Our design services include:

Preliminary Evaluation:

- Site Analysis and Survey
- Feasibility Studies
- Building and Zoning Analysis
- Geotechnical Engineering Analysis

Project Design:

- Civil Engineering
- Landscape Design
- Architectural Design
- Structural Design
- Mechanical Design
- Electrical Design
- Renderings and Models

Design Administration:

- Document Coordination
- Permitting
- Review of Shop Drawings and Submittals
- Scheduling
- Cost Analysis
- Certification of Contractor Payments
- Certificate of Occupancy
- Permit Approvals and Termination
